HIS MAJESTY has been graciously pleased to approve the following revised "Dress Regulations for the Officers of the Army," and to command that they be strictly observed on all occasions.

General or other Officers Commanding will be held responsible that no deviations from the authorised patterns in the uniform of Officers are permitted in their respective commands.

It is to be clearly understood that no Commanding Officer has any authority to order Officers to provide themselves with any articles or any pattern of articles of Dress or Equipment other than those authorised by Regulation. Commanding Officers will be held personally responsible for the payment of any expense which may be entailed on Officers by their having to replace, or to restore to the authorised pattern, articles which may be found by General Officers to be not in conformity therewith.

By order of the Army Council,

A handwritten signature in dark ink, reading "E. W. D. Ward". The signature is written in a cursive style with a large, prominent initial "E".

[As the Dress of Officers of the Army has been considerably altered since the publication of the Regulations of 1900, the usual practice of denoting new matter by a black line in the margin has not been followed out in this book.]

DRESS REGULATIONS

FOR THE OFFICERS OF THE ARMY,

(INCLUDING THE MILITIA),

1904.

PART I.

This edition of the Dress Regulations is divided into sections following the Orders of Dress laid down in the King's Regulations, viz. :—Full Dress, Service Dress, Mess Dress and Undress.
General instructions regarding articles of uniform of universal pattern which form part of either of these dresses are given under the respective headings.
Sealed patterns of garments, buttons, lace, embroidery, badges of rank, special badges, devices, horse furniture and appointments, are deposited at the War Office for reference and guidance.
In providing themselves with uniform and equipment, in case of any doubt arising as to the correct pattern, Officers should make sure (if possible, by personal inspection) that articles according to sealed pattern are being supplied them.

GENERAL INSTRUCTIONS.

A.O. 107
1902

1. **Aiguillette.**—The Staff aiguillette is the distinguishing mark of officers serving on the Staff of the Army, see paragraphs 156 and 161. It is worn by those officers only when performing staff duties, as laid down in the King's Regulations. For description of aiguillette and method of wearing it, see paragraph 157.
The description of aiguillette for Field Marshals, Personal Staff of the King and Royal Family, and Household Cavalry is included in the description of their respective uniforms.
2. **Badges of Rank.**—The rank of officers is shown by badges as under :—
Field-Marshal—Crossed batons on a wreath of laurel, with a crown above.
General—Crossed sword and baton, with star and crown above.
Lieutenant-General—Crossed sword and baton, with crown above.
Major-General—Crossed sword and baton, with star above.
Brigadier-General—Crossed sword and baton.
Colonel—Crown and two stars below.
Lieutenant-Colonel—Crown and one star below.
Major—Crown.
Captain—Three stars.
Lieutenant—Two stars.
Second Lieutenant—One star.
- Badges of rank, except when otherwise ordered, will be worn on all shoulder cords and shoulder straps. They will be in silver embroidery on shoulder cords, and gold-laced shoulder straps, and gilt or gilding metal on plain cloth shoulder straps, frockcoat excepted. In Rifle Regiments they will be in bronze. The crossed sword is 2 inches full and the baton $\frac{1}{2}$ inch shorter. The crowns when laid on shoulder cords or shoulder straps are 1 inch broad and 1 inch in height ; the stars are 1 inch between opposite points.
The batons forming part of the Field Marshal's badges will be in embroidery and crimson velvet.
General Officers' badges are worn in pairs, point of sword to the front and edge of blade outwards or towards the arm.
- Regimental Officers having brevet or honorary rank wear the badges of their army or honorary rank ; Departmental Officers having honorary rank, the badges of that rank ; and Departmental Officers not having honorary rank, the badges of the combatant grade with which they rank.
3. **Badges, Special.**—A detailed description of all badges is given in Appendix I. No badges of a special character are allowed to be worn, except those authorized by these Regulations.
Collar badges will be fixed with the centre of the badge 2 inches from the opening of the collar of the tunic or frock coat. They will be of the same size on all garments. For authorized exceptions see Appendix I.
4. **Boots.**—
Mounted Officers—(1.) When on mounted duties.—Except where otherwise specified, butcher boots will be worn. The height will depend upon the length of the leg. The boot should reach to about 4 inches from the top of the knee. The leg of the boot should be jacked sufficiently to prevent it sinking. A spur rest is fixed 2 inches above the top edge of the heel to keep the spur horizontal. (2.) When dismounted.—Wellington boots with boxes for spurs.
Dismounted Officers—Wellington boots in full dress, mess dress and undress.
For boots worn with service dress, see paragraph 734.

6. **Cocked Hats**—Cocked hats will be of black silk. Dimensions for medium size :—

2.
3

The left side $6\frac{1}{4}$ inches high, the right side $5\frac{3}{4}$ inches; each corner $4\frac{3}{8}$ inches long.

On the right side, a black silk cockade with a loop fastened by a button; at each corner, a bullion tassel, consisting (except where otherwise stated) of nine gold bullions and eleven crimson bullions under them, $1\frac{3}{8}$ inches long, exclusive of the head; midway between the loop and tassel, front and back, a band of $1\frac{1}{4}$ -inch black braid of oak-leaf pattern.

7. **Collars**—The collars of tunics, frock-coats, and jackets will, unless otherwise stated, be cut square at the top in front, and fastened with two hooks and eyes; a black silk tab sewn on inside. The height is not to exceed 2 inches.*

Collars, white linen, are worn with the service dress jacket, and Staff patrol jacket. With white or khaki frocks they are optional, but all officers of a unit must be dressed alike. The collar is not to show more than $\frac{1}{8}$ inch above the uniform. Collars are worn by the 7th Hussars and Oxfordshire Light Infantry in undress.

In mess dress black neckties (white in the Oxfordshire Light Infantry) are worn.

8. **Depth of Skirts**—The skirts of tunics for officers 5 feet 9 inches in height will be :—

For Field Marshals, General Officers and Colonels on the Staff, Royal Artillery, Royal Engineers, Foot Guards, Infantry Regiments, Army Service Corps, Royal Army Medical Corps and Departments generally—10 inches. For Staff, Cavalry, and Rifle Regiments—9 inches.

The skirts of frock coats will reach to the knees.

9. **Forage Caps**—*Universal pattern.*

9

Blue cloth (special shade of blue for Royal Dublin Fusiliers)—Officers of Rifle Regiments, Rifle green cloth—with three cloth welts, $3\frac{1}{4}$ inches total depth, diameter across the top $9\frac{1}{4}$ inches for a cap fitting $21\frac{1}{4}$ inches in circumference, the top to be $\frac{1}{2}$ inch larger or smaller in diameter for every $\frac{1}{4}$ inch the cap may vary in size of head above or below the before-mentioned standard, e.g., a cap $22\frac{1}{4}$ inches in circumference, diameter across the top $9\frac{1}{4}$ inches; cap 21 inches in circumference, diameter $8\frac{7}{8}$ inches. The sides to be made in four pieces, and to be $1\frac{1}{2}$ inches deep between the welts; a cloth band $1\frac{1}{4}$ inches wide placed between the two lower welts. For badge, see Appendix I.

The cap set up on a band of stiff leather, or other material, $1\frac{3}{8}$ inches deep, but not stiffened up in front.

Chin-strap for all officers to be made of black patent leather $\frac{3}{8}$ inch wide, buttoned on to two $\frac{1}{2}$ inch buttons placed immediately behind the corners of the peak.

The peak to droop at an angle of 45 degrees, and to be 2 inches deep in the middle when worn with embroidery, and $1\frac{1}{4}$ inches when plain.

White covers may be worn in hot weather.

Peaks will be embroidered as follows :—

Field Marshals and General Officers.—Embroidered all round with oakleaf embroidery.

Field Officers on the staff of the Army.—Oakleaf embroidery on front edge only.

Field Officers on the cadre of a unit or department, except Rifles.—Plain gold embroidery $\frac{3}{4}$ inch wide (Infantry pattern).

Field Officers of Rifle Regiments.—Black oakleaf embroidery on front edge only.

All other officers.—Plain peak.

Regimental, &c., distinctions, as follows :—

General Officer and Officers (Colonels on the Staff excepted) on the Staff of the Army.—Scarlet band.

Colonels on the Staff.—See paragraph 158.

Plain in the Royal Highlanders and Cameron Highlanders; diced in the Royal Scots, Royal Scots Fusiliers, King's Own Scottish Borderers, Seaforth Highlanders, Gordon Highlanders, and Argyll and Sutherland Highlanders. Bottom of cap bound with black silk. Black silk rosettes, except in the Royal Highlanders. In the Highland Light Infantry, dark green cloth, with diced band $1\frac{1}{2}$ inches wide, and dark green tuft. Scottish Rifles, rifle dark green cloth with tuft of same colour.

For badges, see Appendix I.

10. Gloves—Full Dress.—White doekskin or buckskin, also worn with frock coat. Rifle regiments black gloves.

Service Dress.—Brown dogskin or buckskin. All officers of a unit must wear the same pattern.

11. Great coat.—Universal pattern. Cloth, drab mixture, milled and waterproofed; double-breasted, to reach within a foot of the ground; stand and fall collar 5 inches deep (2-inch stand and 3-inch fall), fastening with two hooks and eyes; cloth tab and button; a $2\frac{1}{2}$ -inch inverted expanding pleat down the centre of the back, from the collar to the waist terminating under the back strap; loose turn back cuffs of single material, 6 inches deep; two slits at side, 10 inches long, jetted in with button catch for pocket mouth; two large patch pockets inside of same cloth; one button and hole to each pocket mouth; the left pocket mouth to answer for the sword slit; a pocket in the breast placed vertically between the second and third button; two rows of buttons down the front, four in each row, about $6\frac{1}{2}$ inches apart, the rows 8 inches apart at the top and 4 inches at the bottom; these measurements are not to be exceeded; two tabs and buttons to slit in back seam; a 2-inch cloth back strap fastened with three holes and buttons; skirt to fasten with two tabs and buttons inside, and to run squarely all round; "Raglan" shaped sleeves, with a cut taken out on the shoulder; coat lined on shoulder and sleeve only; shoulder-straps of Melton cloth the same colour as the garment, edged all round except at the shoulder seam, according to the branch of the Service, attached to the jacket by an underpiece passed through a loop on the lower part of the shoulder and fastened at the top by a small button which passes through both underpiece and shoulder-strap; the top of the strap is triangular, the sides being about $1\frac{1}{2}$ inches long, and the button 1 inch from the centre point.

Staff.—Two broad stripes of red cloth with a $\frac{1}{2}$ -inch serge light.

Cavalry of the Line.—Edging, $\frac{1}{2}$ -inch yellow cloth.

Royal Artillery.—Edging, $\frac{1}{2}$ -inch dark blue cloth; in the centre, a loop of scarlet braid from the shoulder seam round the upper end of the button-hole, the sides of the loop $\frac{1}{4}$ inch apart.

Royal Engineers.—As for Royal Artillery, but with colours reversed.

Infantry.—Edging, $\frac{1}{2}$ -inch scarlet cloth.

Army Service Corps.—Edging, $\frac{1}{2}$ -inch white cloth.

Royal Army Medical Corps.—Edging, $\frac{1}{2}$ -inch white cloth; loop of dull cherry braid.

Army Pay Department.—Edging, $\frac{1}{2}$ -inch white cloth; loop of yellow braid.

Army Ordnance Department.—Edging, $\frac{1}{2}$ -inch white cloth; loop of scarlet braid.

Army Veterinary Department.—Edging, $\frac{1}{2}$ -inch white cloth; loop of maroon braid.

Provost Marshal.—Edging, $\frac{1}{2}$ -inch white cloth; loop of black braid.

Inspector of Army Schools.—Edging, $\frac{1}{2}$ -inch light blue cloth.

For mounted officers the coat is cut below the waist with spring to form 16-inch lap, or 8 inches on from the centre line. The slit at the back should be of suitable length for riding.

All Royal Engineer officers wear the pattern for mounted officers.

For the Dominion of Canada, see paragraph 718.

12. Helmet, Universal Home Pattern (Foreign Service Helmet, see paragraph 706)—

(a) Cork, covered with blue cloth in four seams, two on each side; peaks front and back, stiffened and covered with cloth with a seam at each side; the front peak bound with metal $\frac{3}{8}$ inch wide, the back peak with patent leather $\frac{1}{8}$ inch wide. Above the peaks and going round the helmet a cloth band $\frac{3}{4}$ inch wide, and stitched top and bottom. Back peak to centre of crown $10\frac{1}{2}$ inches; front peak to centre of crown $10\frac{1}{2}$ inches; side to centre of crown 8 inches. Curb-chain chin strap, the links $\frac{5}{8}$ inch wide and the strap lined with patent leather, backed with black velvet. Rose fastenings at the sides; convex bar, $\frac{1}{2}$ inch wide, down the centre of the back and to the bottom of the back peak. The bar is in one piece, and is fastened to the helmet by means of two studs and a flattened prolongation of the bar under the back peak. At the top of the helmet, a spike mounted on a cross-piece base.

The dimensions of the spike are—

Height of spike from place of insertion in the top rose of the cross-piece base	...	...	2 $\frac{3}{4}$ inches.
Total height of spike and base	...	...	3 $\frac{1}{4}$ inches.
Diameter of spike at point of contact with the top rose of base	...	...	$\frac{1}{8}$ inch.

The cross-piece base is of metal; there is a rose at the top into which the spike is screwed, and a smaller rose on each of the four terminations of the base. A hook at the back of the base, to which the chin strap is attached when not required to be worn under the chin. The width of the base from the point of the front termination to the point of the rear termination, measured in a straight line underneath, 4 $\frac{1}{2}$ inches, that from side to side 3 $\frac{1}{2}$ inches. The base is attached to the helmet by four screws and nuts. For ventilation, the base is perforated with four holes. A collet is inserted in the crown of the helmet.

(b) In Field and Garrison Artillery, in the Army Service Corps, the Royal Army Medical Corps, and the Army Veterinary Department, a ball in a leaf cup is substituted for the spike. Height of ball and cup, 1 $\frac{1}{2}$ inches.

(c) In Light Infantry, the helmet is covered with dark green cloth.

(d) A description of the plates worn with this pattern of helmet is included in the Dress of the Services for which it is regulation. See also Appendix I.

31

61002
6632 13. **Metal for Ornaments, Badges, Devices, Furniture, &c.**—For standard quality of gold lace see Appendix III. The yellow metal for officers' badges, ornaments, devices, and furniture generally can be either of gilding metal or of gilding metal water-gilt.

Contractors usually supply the latter, but gilding metal is recommended as always presenting the same appearance, as the water-gilt wears off in cleaning.

Gilding metal is also cheaper. Water gilding increases the cost from 10% to 30% according to the nature of the article.

"Gilding" metal, i.e., metal suitable for gilding purposes, is composed of 8 parts copper to 1 of zinc.

Note.—The terms gilt or silver imply metal, unless embroidery is stated.

61002 14. **Mourning band**—Crape 3 $\frac{1}{2}$ inches wide, worn above the left elbow.

A.O. 124 15. **Saddlery**—*Universal patterns (Household troops excepted). See Appendix V. Browbands and rosettes of authorised colour. Rosettes 2 $\frac{1}{2}$ inches by 2 inches mounted on leather.

57-58

For Active Service, Staff Officers and Mounted Officers of Infantry should provide themselves with numnahs of regulation pattern, and with a corn sack, 12-lb., described in List of Changes, paragraph 8337. Numnahs of regulation shape, or leather numnahs cut to the shape of the saddle, are permissive in peace time, but the Officers of each unit must turn out alike.

61002 16. **Sashes**—Sashes are worn by all Officers for whom they are regulation (except Officers of Highland Regiments) round the waist, the tassels hanging from the left side. By Officers of Highland Regiments sashes are worn diagonally over the left shoulder under the left shoulder-strap and over the sword belt: the ends are crossed through a runner at the waist. Sashes will be of such length that the ends of the tassels shall reach 4 inches below the bottom of the skirt of the tunic. Waist sashes should be 2 $\frac{1}{2}$ " wide and without pleats.

6516
6825 17. **Shoulder Cords or Shoulder Straps**—Shoulder cords or shoulder straps, except where otherwise provided, are worn on tunics, doublets, jackets, frock-coats, and greatcoats. A description is included in that of the garments on which they are worn.

41

61002 18. **Spurs**—Steel—With butcher boots jack spurs with straps, buckles, and chains. With Wellington boots, box spurs. For exceptions see under the services concerned.

61002 19. **Straps**—Whenever spurs are worn with trousers, straps are to be worn also. Foot chains are worn in the Cavalry 3rd Dragoon Guards.

11 20. **Sword Belts**—As described for the respective Services in which they are worn.

A.O. 4 and 111 The universal pattern "Sam Browne" with two braces, revolver case, ammunition pouch, frog and brown leather scabbard is worn in all branches of the Service. For description see Appendices VI and VII.

48, 49

1896 Sword belts, other than the "Sam Browne" belt, will be worn as follows:—

61002 Under the tunic by the Personal Staff of the Sovereign and Royal Family, Field-Marsbals, General Officers, Colonels on the Staff, Officers of Cavalry of the Line, Mounted Officers of Royal Artillery, Officers of Infantry of the Line (except Highland Regiments), and Rifle Regiments, and over the tunic or doublet by all other Officers. (See also para. 1973 King's Regulations.)

61002 Over the frock-coat and under patrol jackets.

Art. 16 The web belt, described in Appendix VII will be worn by Officers of all branches of the Service who wear the sword belt under the tunic, or patrol jacket, and with the frock-coat under the girdle or waist sash. Slings will be made with studs and holes, so that they can be removed from the belt if required.

42

61002 21. **Trousers, Tunics and Pantaloon**s—For Mounted Officers, trousers or overalls should be cut straight, and from 1 $\frac{1}{2}$ to 2 inches longer than ordinary trousers. They should be strapped firmly down to the boot and fit closely above the spurs.

Pantaloon should be cut loose in the thigh and tight at the knee. Ample length from the hip to the knee is essential so that the wearer can have the necessary freedom in mounting and dismounting. They should have buckskin strapping at the knee, and if, made for hard wear, seat strapping also. The pockets of trousers and pantaloon should be cut across.

A waist strap and buckle should be fitted.

In hot climates the tunic may be made of a thin material.

61002 22. **Waterproof Coat and Cape**—For all ranks, in accordance with the pattern deposited at the War Office. Cape long enough to cover the knees when mounted, no collar.

7424 23. **Whistles**—There is no sealed pattern, but all the Officers of a unit should carry the same pattern. They will be attached to a lanyard of the colour of the service frock.

* Officers may use saddlery in their possession until worn out.

SUPPLY OF MATERIALS BY THE ROYAL ARMY CLOTHING DEPARTMENT ON REPAYMENT.

24. For the convenience of Officers, articles of clothing and necessities, and materials of Army Pattern can be supplied to them from the Royal Army Clothing Department on repayment. A list of materials which can be supplied is given in Appendix IX.

The Rules under which these issues can be made will be found in the Clothing Regulations.

SUPPLY OF ARMS AND ARTICLES OF EQUIPMENT FROM ARMY ORDNANCE DEPARTMENT.

25. Officers are permitted to draw from the Army Ordnance Department on repayment any Arms, Accoutrements, or Saddlery of Service Patterns which form part of their Regulation Equipment, and which they may require for their personal use, *vide* Equipment Regulations.

DECORATIONS AND MEDALS.

1. METHOD OF WEARING.

26. Worn on the left breast of the garment which is the full dress of the unit or individual. In the case of Highland and Scottish regiments over the sash, and in corps wearing the pouch belt under that article. They are to be worn in a horizontal line, suspended from a single bar or buckle which is not to be seen, or stitched to the garment, and placed immediately between the first and second buttons from the bottom of the collar; in hussar regiments immediately below the top bar of lace on the left breast of the tunic.
- Worn in the order of the dates of the campaigns for which they have been conferred, the first obtained being placed farthest from the left shoulder.
- Medals awarded by the Royal Humane Society for bravery in saving life will, when authorized, be worn, in a position corresponding with war medals, on the right breast.
- When the decorations and medals cannot, on account of their number, be suspended from the bar so as to be fully seen, they are to overlap.
- Medals are to be worn so as to show the Sovereign's head.
- The first earned clasp should be worn nearest the medal.

2. MINIATURE DECORATIONS AND MEDALS.

- Worn with mess dress on the lapel, and with evening dress (plain clothes) on state, public, or official occasions.
- With miniature medals the same sized miniature of the order is worn, *e.g.*, a Knight Grand Cross will wear a miniature the same size as a Companion of the Order.
- When a decoration is worn round the neck the miniature will not be worn.
- Officers whose names have been included in medal rolls transmitted to the War Office may wear the miniature medal in mess dress before the war medal is actually issued.

3. RIBANDS OF DECORATIONS AND MEDALS.

- Full Dress.**—The width of a medal riband is $1\frac{1}{2}$ inches. The riband is not to exceed 1 inch in length unless the number of clasps require it to be longer. The first clasp to commence 1 inch from the top of the riband. The buckles attached to the ribands of the third class of the Orders of the Bath and St. Michael and St. George should show half-way between the upper and lower edge of the ribbon.
- Undress.**—Ribands will be $\frac{1}{2}$ inch in length, and will be sewn on to the cloth of the coat or jacket, or with white or khaki worn on a bar without intervals, in the same position as prescribed for decorations and medals. They should not overlap, and when there is not sufficient room to wear the ribands in one row they should be worn in two or more rows, the lower being arranged directly under the upper at $\frac{1}{2}$ inch distance apart.

4. STARS OF ORDERS.

- In Review order.
- In Review order (staff in blue). "They will not be worn when the undress headdress is worn.
- In evening dress (plain clothes), on state, public, or official occasions.
- All Stars of Orders are to be worn in Review order; and in evening dress (plain clothes) on State occasions.
- The Star of the Senior Order or decoration only will be worn in Review order (staff in blue), and in evening dress (plain clothes) on public and official occasions; unless it be desired to compliment a member of a particular Order when the Star of that Order may also be worn.
- The Stars of Foreign Orders will be worn on the right or left breast according to the regulation laid down by the Sovereign by whom they are conferred.
- The foregoing regulations apply to the wearing, by members and honorary associates, of the badge of the Order of the Hospital of St. John of Jerusalem in England.
- In foreign countries British officers will wear their stars when foreign officers wear theirs.

5. RIBANDS AND BADGES OF ORDERS.

- On State occasions, Knights Grand Cross and Knights Grand Commanders of any British Orders, except the Order of the Garter, and the Order of the Thistle, will, when in Review order or in evening dress (plain clothes), wear the broad ribands of the Orders, over the right shoulder and under the sash or belt. The ribands of the Orders of the Garter and the Thistle are worn over the left shoulder. Knights Commanders and Commanders will, when in Review order or in evening dress (plain clothes), wear the ribands of the Orders inside the collar of the tunic or coat, the badge being suspended two inches below the lower edge of the collar. Badges of Orders are not to be worn except as above.
- Knights Commanders of two or more Orders wear round the neck the riband and badge of one Order only.
- Riband of Orders will not be worn by officers attending military funerals, nor will the broad ribands be worn on Collar days.
- On Collar days the Knights of the several Orders wear the collar and badge, as also the star. When the Collar is worn the riband (with its badge) of the same order should not be worn. The Collar is never worn after sunset. If a Knight possesses two or more Orders which entitle him to the Collar of each he may wear one or more of the Collars at pleasure as well as the stars.
- When the Collar (from which the badge is suspended) is worn, the riband with its badge should not be worn.
- The following are Collar days :—
- Easter Sunday, Monday and Tuesday.
 - Ascension Day.
 - Whit Sunday, Monday and Tuesday.
 - Trinity Sunday.

ATTACHED OFFICERS.

689. Officers attached to a unit for temporary duty will wear the uniform of the unit to which they belong. If on appointment to a unit serving abroad, they are attached to a unit at home pending embarkation, they will only be required to obtain the service dress and such other articles of uniform as are actually necessary for the performance of their duties. If attached to a unit for instruction before appointment to any unit they will only provide themselves with the service dress of an officer of cavalry, or infantry of the line as the case may require.

OFFICERS ON THE ACTIVE LIST ON HALF-PAY.

690. Officers on the Active List on half-pay, until retired or brought back to full-pay, or if brought back to full pay for temporary duty, may wear the uniform in which they last served.

RETIRED OFFICERS AND RESERVE OF OFFICERS.*

691. *a.* All officers retired from the active list may wear the uniform of the unit in which they last served, but with the letter **R** on the shoulder cords or shoulder straps below the badges of rank.
b. Officers who voluntarily join the reserve of officers on resigning their active commissions in the Regular or Auxiliary Forces are entitled to wear the uniform of the unit in which they last served, with the letter **R** on the shoulder cords or shoulder straps below the badges of rank, but when removed from the Reserve of Officers on reaching the age limit, they are no longer entitled to wear uniform.
c. Officers of the reserve of officers, when employed on army service, will provide themselves with service dress and mess dress. The letter **R** will be worn below the badges of rank, in similar material to those badges.
d. Officers of the reserve of officers are not required to provide themselves with any uniform until their services are actually required.
e. In the service dress the letter **R** will be worn on the point of the collar below the collar badges.
f. Colonels who retire whilst holding staff appointments, may wear their staff uniform with the addition of the letter **R** on the shoulder cords. They will not, however, wear the aiguillette.

MILITIA.

692. Officers on retirement after 15 years' commissioned service, including Army service, who are permitted to retain their rank, may wear the uniform of the Militia unit in which they last served, with the addition of the letters **MR** on the shoulder cords or shoulder straps below the badges of rank.
693. The above regulations do not apply to Officers who retired prior to the 1st July, 1881. These Officers can only be allowed to wear uniform if the regulations existing at the time of their retirement permitted it.
694. Whenever retired Officers require to renew their uniforms, the latest approved patterns will be followed.
695. The letters **R** and **MR** will be in silver embroidery on shoulder cords; in gilt or gilding metal on cloth shoulder straps. In the case of Officers retired from Rifles, the letters will be in bronze.

* Instructions for the wearing of uniform by Retired Officers of the Indian Army are contained in the Army Regulations, India, Vol. VII.

DOMINION OF CANADA, EXCEPT BRITISH COLUMBIA.

Uniform as worn in United Kingdom, with winter clothing as follows :—

- 55
Gen.No. 717. **Fur Cap**—Beaver (folding in a manner similar to Glengarry), 7 inches high. A detachable fur flap on each side to protect the ears; the flaps $4\frac{1}{2}$ inches long at the top and rounded at the bottom; the deepest point of the bottom curve $3\frac{1}{2}$ inches from the top edge, fur on each side, and to hold them in position (whether down or up) they are connected by a strip of narrow black elastic tape attached to the lowest point of each curve. To attach the flaps to the cap, a piece of black silk, fitted with two hooks, is stitched to the top of each flap, two eyes corresponding in the lining of the cap. The hooks and eyes should be so placed that when the flap is hooked on, the fur edge of the top meets the fur edge of the lower rim of the cap, so that none of the silk strip may be seen, and the eyes should be placed sufficiently high to avoid pressure of the hooks and eyes on the sides of the head, when the flaps are worn. The straight top edge of the fur flaps should be cut at a slant, so that the flaps, when attached, hang with a slight inclination to the front, in order to allow them to lie flat to the ears when the elastic tape is under the chin. Badges, regimental pattern.
- 55
Gen.No. 718. **Great Coat***—Drab mixture as described in paragraph 11, in winter it is worn with a detachable beaver collar, high enough when fully extended to reach the top of the ears, to be fastened by hooks and eyes or buttons to the inside of the great coat, and to extend to the second button hole from the neck. No fur on the cuffs.
- 61002
6786 719. **Knee Boots**—Brown leather (black for Rifle Regiments) similar to those worn by the rank and file, the official description of which is "boots, knee, Canada pattern." The boots are worn outside the ordinary pantaloons or trousers. Officers can procure them on repayment from the Army Clothing Department, or from the Army Ordnance Department at Halifax, Nova Scotia.
- 55
Gen.No. 720. **Fur Gauntlets**—Beaver backs, leather palms, to reach up to the top edge of cloth cuffs on great coat.
- 61002
6783 721. **Helmet Khaki**, see para. 706.

INFANTRY OF THE LINE.

The mess dress worn in all battalions of a regiment must be of the same pattern.

760. **Mess Jacket**—Scarlet cloth (except in Rifle Regiments, in which the jacket is Rifle green), edged all round with white piping where shown in table. Roll collar; pointed cuffs, 6 inches deep at the point and $2\frac{1}{4}$ inches behind, cloth shoulder straps; the collar, cuffs, and shoulder straps to be of the colour of the regimental facings, and edged like the jacket, except where the facings are white. Small buttons and button-holes down the front. Shoulder straps, with badges of rank in gilt metal of the dimensions laid down in paragraph 2, will be worn with all mess jackets.

Collar badges (see Appendix I) may be worn on the collar, 5 inches from the seam of the shoulder.

761. **Mess Waistcoat**—Cloth of the colour of the regimental facings, open in front. Fastened with four half-inch buttons of regimental pattern,—see Appendix I. In regiments with white facings the waistcoat may be of white or scarlet cloth, or a white washing waistcoat, without lappels.

HIGHLAND REGIMENTS.

762. Mess Jacket—Scarlet cloth, with collar and pointed cuffs, of the regimental facings. Edged all round with white cloth, $\frac{1}{2}$ inch wide. The cuffs similarly edged round the top. 10 buttons of regimental pattern down the front; two above each cuff at the back of the sleeve. Shoulder cords as on doublet.

In the Royal Highlanders the jacket has buff silk lining (except for collar, which is dark blue), and no facing cloth on the inside.

In the Seaforth Highlanders the jacket is lined with buff silk, with buff cloth on inside of jacket in front and inside of collar.

In the Gordon Highlanders the jacket is lined with red, and the inside of the collar and of the garment on either side with crimson silk instead of facing cloth.

In the Cameron Highlanders the jacket has buff silk lining, and no facing cloth on the inside.

In the Argyll and Sutherland Highlanders the jacket is lined with pale yellow; the inside of the collar and down the inside of the jacket on either side with facing cloth.

763. Mess Waistcoat—Cloth of the colour of the facings, scarlet cloth or regimental tartan; in other respects, the pattern is as for the cloth mess waistcoats of Infantry of the Line. In the Gordon Highlanders, the waistcoat is of scarlet cloth, with roll collar and three small regimental buttons. In the Seaforth Highlanders, regimental tartan, no collar, 3 buttons. Black Watch, Regimental tartan, roll collar, 3 buttons.

HIGHLAND LIGHT INFANTRY.

764. Mess Jacket—Scarlet cloth, with collar and cuffs of regimental facings, edged all round with white cloth $\frac{1}{2}$ inch wide. Gauntlet cuffs edged round the top. Four buttons of regimental pattern down the front. Four on the back of each cuff in a fly. Crimson silk lining. Twisted treble gold shoulder cords lined with scarlet. Small regimental button at the top, thistle in silver embroidery below the badges of rank.

765. Mess Waistcoat—Tartan, of authorised regimental pattern, single-breasted; no collar; open halfway down; three regimental buttons in front. The waistcoat edged all round with $\frac{1}{2}$ -inch round gold cord. Pockets on each side, edged with similar cord, forming crow's feet in the centre and at the ends.

APPENDIX II.

CARE AND PRESERVATION OF UNIFORM.

Care and preservation of uniform and of gold lace.

61002
5763

Articles of Uniform liable to be moth-eaten should be unfolded at intervals and well beaten and brushed in the open air. Russia leather parings, powdered camphor, naphthaline, carbolised paper, or turpentine sprinkled on brown paper, or on the garments, are good for the prevention of moth, and one or another of these preventives should be placed amongst articles of uniform which are to be packed away for any time.

Before being packed away, gold lace, braid, cord, or buttons on garments should be covered with tissue paper, and then placed in tin-lined air-tight cases. Care must be taken to use paper that is thoroughly dry. For the prevention of moth, the garments should be well aired and brushed before being packed.

Gold trimmings and gold lace that have become slightly tarnished can be cleaned with a mixture of cream of tartar and dry bread rubbed up very fine, applied in a dry state, and brushed lightly with a clean soft brush.

Removing stains from scarlet tunics.

In many cases stains may be removed by the part affected being rubbed with dry pipeclay and then well brushed with a clean brush. Should this fail to remove them the following mixture may be tried :—

$\frac{1}{2}$ ounce of salts of sorrel to $\frac{1}{2}$ a pint of boiling water.
 $\frac{1}{2}$ ounce of cream of tartar to $\frac{1}{2}$ a pint of cold water.

Each solution should be kept in a separate flat vessel.

These quantities will be sufficient to clean 2 or 3 garments.

The garment which requires cleaning should be first well beaten and brushed, and a perfectly clean hard brush should be used in applying the solutions.

The solutions should be applied alternately commencing with the salts of sorrel, until the garment has been washed all over, and all the stains removed.

If the weather permit, the cleaned garments should be hung up in the sun to dry; if not, they should be hung up in a dry place, but not near fires or stoves.

APPENDIX III.

BUTTONS AND LACE.

61002 181	Buttons —Buttons are of the following sizes :—			
	Large			35 to 40 lines (Hussars 32 lines).
	Medium			30 „ 34 „
	Small			24 „ 29 „

A.O. 180 1894	Lace, Quality of —The standard quality recommended for gold lace is as follows :—			
	Gold			3'500 }
	Silver			87'334 } per cent.
	Alloy			9'166 }

The lace should be mercurial-gilt.

For laces more than $\frac{1}{2}$ inch wide, the thread should be 4-drachm, and wire “20 fine.” For narrower laces, the thread should be 3 $\frac{1}{2}$ -drachm, and wire “20 extra fine.”

APPENDIX IV.

DESCRIPTION OF THE LATEST PATTERN OF SERVICE REVOLVER : “PISTOL, WEBLEY,
MARK IV.”

(Plate 43.)

This Pistol belongs to the class of extracting revolvers. The calibre is .441 inch. The principal parts are the barrel (*a*), the cylinder (*b*), and the body (*c*).

The barrel is jointed to the body at (*d*), and held in position for firing by the rib (*e*) extending back on to the body, and is firmly secured by the barrel catch (*f*).

The cylinder is chambered to hold 6 cartridges, and is mounted to the barrel on a fixed axis, and held in position at the time of extracting by the cam (*g*).

The stem of the extractor lies in the fixed axis, surrounded by a spiral spring which returns the extractor after ejecting the cartridge cases; the extractor is forced out by a small lever in the joint as the barrel is being rotated on the joint pin.

When it is necessary to remove the cylinder for cleaning, the fixing screw (*j*) must be unscrewed, and the pistol opened to its fullest extent; then, by pressing the lever (*k*) against the cam (*g*), the cylinder will be free; in no other position can the cylinder be taken off the axis.

The body is fitted with a shield plate (*z*) of hardened steel, to prevent wear of firing hole, and to support base of cartridge.

Weight of pistol about 2 lbs. 3 ozs.

The latest pattern of cartridge for this pistol is shown on plate 65.

Charge, about $7\frac{1}{2}$ grains of cordite. Bullet, about 265 grains.

SWORDS AND SCABBARDS.

(1) FIELD MARSHALS AND GENERAL OFFICERS. (Approved, 27th July, 1896.)

(Plate 44.)

Sword.—The blade is of the shape shown in the annexed plate. The mounting is metal gilt, and consists of crosspiece, strap, two studs and screws, and sword-knot bushes (all ornamented). The grips are of ivory, fastened on the tang with the above-mentioned studs and screws.

The blade may be plain, or ornamentally embossed.

61002
0432

The blade recovers straightness after being subjected to a weight of 10 lbs. vertically with 1 inch depression.

Scabbard.—The scabbard is of steel, and is fitted with an iron sputcheon with brass mouthpiece, brazed on and fixed in scabbard with two screws. Two bands with loose rings are fixed on with two screws 3 inches and 12 inches respectively from the top of the mouthpiece.

The lining consists of two strips of wood held in position by the sputcheon.

(2) OFFICERS OF CAVALRY OF THE LINE. (Approved, 11th September, 1896.)

(Plate 45.)

Sword.—The blade is slightly curved, and tapers gradually from shoulder to point. It is fullered on both sides to a thickness of not less than .05 inch, commencing at 1½ inches from the shoulder to 11 inches from the point.

The mounting consists of guard, grip, strap, ferrule, and nut.

The guard, grip, and ferrule are held in position by a nut screwed on the tang; the strap is held in position by the ferrule, and by the tang being riveted over the top of the strap.

The guard is of steel, and is pierced by an ornamental device. The grip is of wood, covered with fish skin, and bound with silver wire. It must be from 5 inches to 5½ inches long, variation being allowed according to size of hand.

The blade may be plain, or ornamentally embossed. In the latter case, while it is not necessary that a uniform pattern of ornamentation should be followed, the design should not include any badge or device beyond the Royal Cypher and Crown, and the usual manufacturer's name or trade mark.

Swords of this pattern should stand the following tests:—

Blade, in set and stiffened stage.—Struck back and edge, and on both flats, on an oak block by hand.

With a weight of 30 lbs. in the vertical testing machine, the blade should recover straightness after not less than 1 inch depression; in the same machine it should be shortened 4 inches.

Hilt assembled.—Struck a moderate blow on an oak block, back and edge, to test the soundness of hilt.

Sword complete.—With a weight of 28 lbs. in the vertical testing machine, the sword should recover straightness after not less than 1 inch depression.

Scabbard.—The scabbard is of steel, and is fitted with a German silver mouthpiece with sputcheon brazed on, fixed to the scabbard by two screws. Two bands with loose rings are brazed on the scabbard, 2½ inches and 10½ inches respectively from the top of the mouthpiece.

The lining is of leather, blocked flesh side out, turned, butted, and herring-bone stitched with fine waxed thread on the right side of lining, and held in position by the sputcheon.

(3) OFFICERS OF ROYAL ARTILLERY. (Approved, 25th August, 1902.)

(Plate 45.)

Sword.—The blade is slightly curved, tapers gradually, is 34 inches long from shoulder to point, and is fullered on both sides, commencing $1\frac{1}{2}$ inches from hilt, to about 9 inches from point, to a thickness of not less than .04 inch.

The mounting consists of guard, grip, ferrule, strap, nut and washer.

The guard, grip, and ferrule are held in position by a nut screwed on the tang underneath the strap; the strap is held by a washer, the end of the tang being riveted over the washer.

The guard is of stamped mild steel, of the bar pattern.

The grip is of wood covered with fish skin, and bound with silver wire; the length of grip must be from 5 inches to $5\frac{1}{2}$ inches long, variation being allowed to suit the size of the hand.

The blade may be plain, or ornamentally embossed. In the latter case, while it is not necessary that a uniform pattern of ornamentation should be followed, the design should not include any badge or device beyond the Royal Cypher and Crown, and the usual manufacturer's name or trade mark.

Swords of this pattern should stand the following tests:—

Blade.—In set and stiffened stage:—Struck back and edge, and on both flats, on an oak block by hand.

With a weight of 26 lbs. in the vertical testing machine, the blade should recover straightness after not less than 1 inch depression; in the same machine it should be shortened $\frac{1}{2}$ inches by bending from right to left, and then from left to right.

Hilt assembled.—Struck a moderate blow on an oak block, back and edge, to test the soundness of hilting.

Sword complete.—With a weight of 24 lbs. in the vertical testing machine, it should recover straightness after not less than 1 inch depression.

Scabbard.—The scabbard is of steel; it is fitted with a German silver mouthpiece with the sputcheon brazed on, fixed to the scabbard with two screws; two bands with loose rings are brazed to the scabbard, $2\frac{1}{2}$ inches and $10\frac{1}{2}$ inches respectively from the top of the mouthpiece.

The lining is of leather, blocked flesh side out, turned, butted, and herring-bone stitched with fine waxed thread on the right side of lining, and held in position by the sputcheon.

(7) CLAYMORE, OFFICER'S, HIGHLAND PATTERN. (Approved, 7th October, 1863.) (See Plate 47.)

Sword.—The blade is straight and tapers gradually to a point, it is double fullered on both sides to a thickness of not less than '05 inch, both edges being ground to thickness of about '01 inch, commencing about 9 inches from the guard.

The mountings consist of guard, grip, ferrule, nut, pommel, washer, lining and tassel.

The guard, grip and ferrule are held in position by a nut screwed on the tang underneath the pommel; the pommel is held by a washer, the end of the tang being rivetted over the washer.

The guard is of malleable cast-iron, of an open ornamental device; it is lined with white leather covered with crimson cloth and bound round the edge with blue silk ribbon, which is tied round the grip and scroll of the guard, the lining is detachable; a tassel of crimson silk fringe is fixed under the pommel.

The grip is of wood covered with fish skin and bound with silver wire; the length of the grip must be from 5 inches to 5 $\frac{3}{4}$ inches long, variation being allowed to suit the size of hand.

The blade may be plain or ornamentally embossed; in the latter case while it is not necessary that a uniform pattern or ornamentation should be followed, the design should not include any badge or device beyond the Royal Monogram and Crown, and the usual manufacturer's name or trade mark.

Swords of this pattern should withstand the following tests:—

Blade.—In the set and stiffened stage, stuck on back and edge and on both flaps, on an oak block, by hand.

With a weight of 18 pounds in the vertical machine, the blade should recover straightness after not less than 1 inch depression. In the same machine the blade should be shortened 5 inches by bending from right to left and then from left to right.

Hilt assembled.—Struck a moderate blow by hand on an oak block, back and edge, to test soundness of hilting.

Sword complete.—With a weight 16 lbs. in the vertical testing machine it should recover straightness after not less 1 inch depression.

Scabbard.—The scabbard is of steel. It is fitted with a German silver mouthpiece, with sputcheon brazed on and fixed to the scabbard with two screws. Two bands with loose rings are brazed on the scabbard 2 $\frac{1}{2}$ inches and 11 inches respectively, from the top of the mouthpiece. It is also fitted with round knobbed tip, brazed in the end.

The lining is of leather, blocked with flesh side in, turned, butted, and herring bone stitched with fine waxed thread on the right side of the lining, and held in position by the sputcheon.

Length of sword									3 feet 2 $\frac{5}{8}$ inches.
" scabbard									2 " 9 $\frac{1}{2}$ "

DESCRIPTION OF SCABBARD FOR USE WITH "SAM BROWNE" BELTS.

Sealed 19th June, 1902.

(Plate 48.)

The scabbard is built up with two strips of wood, grooved to receive blade of sword; they are butted and glued together. A.O.
—
151
1899

The strips of wood are covered with brown leather, sewn down one side. A raised rib is formed below the locket by a piece of packing between wood and leather.

The body is made entirely of brown leather, including the chape. The supporter is attached to the rib of the scabbard to hold it at a proper height in the frog, and has a tab attached which buttons on the front of belt frog or the frog on shoe pocket and so prevents either upward or downward movement of the scabbard.

Length over all...									2 feet 10 inches.
" of chape									7 $\frac{1}{2}$ inches.
Weight of scabbard complete...									9 $\frac{1}{2}$ ounces.

The pattern scabbard is to be regarded as typical only, as shape and dimensions may require to be varied according to the sword to be carried.

APPENDIX VII.

BELTS AND SWORD KNOT (UNIVERSAL PATTERN).

(1) THE "SAM BROWNE" BELTS.

Sealed 24th April, 1900.

(Plate 49.)

(Worn by officers of all branches of the service.)

A.O. 151
1899

The belts, complete, consist of a waist-belt, two shoulder-belts, a sword-frog, an ammunition-pouch, and a pistol case; the whole made of brown bridle leather.

The waist-belt is $2\frac{1}{8}$ inches wide, and of a length to suit the wearer. It is fitted with a double-tongued brass buckle, and has four brass dees for the shoulder-belts (two at the back, and one on each side), a running loop for the free end of the belt, two brass rings for attachment of the frog, and a hook for hooking it up. The waist-belt is lined with faced basil.

The shoulder-belts are plain straps (crossed at the back through a loop). They are $1\frac{1}{4}$ inches wide. The patterns are about 35 inches long over all, without chapes. The length however may be varied to suit the wearer. They are fitted with studs for attachment to the dees at the back of the waist-belt. A chape, with stud and a buckle, is provided for each, for attachment to the dees at the sides of the belt.

The strap over the left shoulder need not be worn, except when it is required to support the revolver.

The frog is fitted with two straps, which are to be passed through the dees on the lower part of the belt. The frog has a small brass dee on the top, to go over the hook on the belt when "hooking up." A stud is fitted on the front of the frog, upon which the tab of the scabbard supporter is fastened. (See description of leather scabbard.)

A small strap for steadying the sword hilt is attached to the rear dee for the frog, holes being made in the strap to pass over a stud on the belt above the front dee.

The ammunition-pouch and pistol-case are fitted with loops on the back for attachment to the waist-belt; also with stud and tab fastenings. The loop on the pistol-case is furnished with a small brass hook, which should pass through a hole to be made for the purpose in the belt to suit the wearer in order to secure the case and keep it in position.

The pattern pistol-case is to be regarded as typical only, as its dimensions must suit the particular pattern of pistol carried.

The "furniture" should be of the best yellow brass.

(2) WEB SWORD BELT. (Plate 42.)

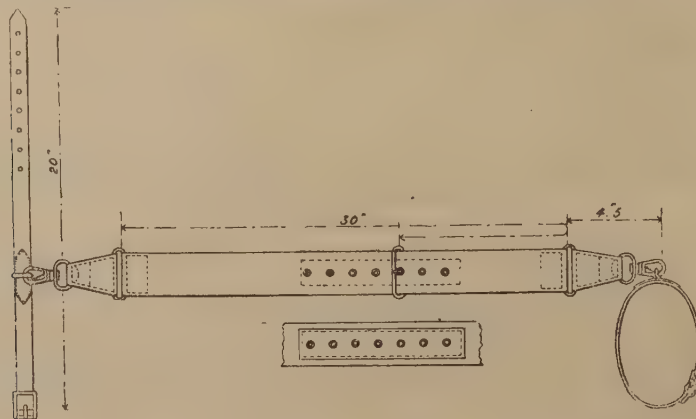

This consists of a waist belt and a shoulder suspender of worsted web, strengthened at various parts with black morocco leather. It is furnished with loops, chapes, and dees. The loops and chapes are of morocco leather, and the furniture of gilding metal.

The suspender is fitted with hooks so that it can be removed by officers wearing the web belt under the sash, outside the frock coat.

(3) WEB BELT AND BRIDLE LEATHER STRAPS FOR CARRYING GREAT-COAT.

The belt is made from $2\frac{1}{8}$ -inch worsted web, and is strengthened at the eyelet holes by a light piece of leather.

The coat straps are made from bridle leather, and the furniture of gilding metal.

A.O. 151
1899

(4) SWORD-KNOT (UNIVERSAL PATTERN), UNDRRESS. (Plate 42.)

The sword-knot to be used with the "Sam Browne" belt is the universal pattern of brown leather. It is a plain strap made of pigskin, best bridle leather, or calf, the ends being secured into an "acorn" having plaited leather covering. It is furnished with a sliding keeper.

Length of strap in the double, 15 inches; width of strap, $\frac{5}{8}$ inch; length of 'acorn', $2\frac{1}{2}$ inches.

APPENDIX VIII.

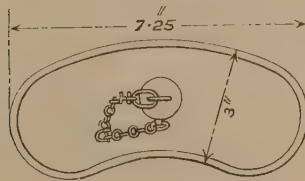

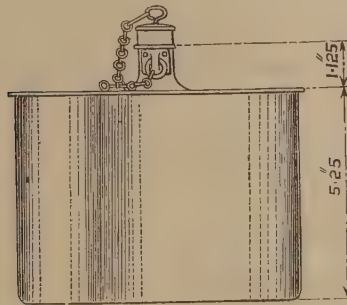

WATER BOTTLE.

DESCRIPTION OF THE PATTERN WITH WHICH OFFICERS ARE RECOMMENDED TO PROVIDE THEMSELVES.

The bottle is made of pure aluminium, of the form and dimensions shown in the accompanying drawings:—

Bottle complete, with cover and sling.

Bottle uncovered.

It has a cork stopper attached by a short chain. The cork is held on a stem, tapped at the end to receive a small nut, so that the cork, which is of the size generally used for wine bottles, &c., may be readily renewed when necessary.

The bottle is covered with felt, and has a strap fixed around it, passing through four loops sewn on to the felt. The extremities of this strap, which are at the shoulders of the bottle, are provided with brass loops, through which the ends of the sling or carrier are passed. The sling is $\frac{3}{4}$ inch wide, and of suitable length for the wearer. It has a brass stud fixed near each end and a hole at the end to button on to the stud. The sling may therefore be worn under belts, so as to carry the bottle steadily, and the latter may be removed without disturbing the sling. The leather is all brown "best bridle."

Weight complete, about 14 ozs.

Capacity of bottle, $2\frac{1}{2}$ pints.
